Title	Privacy Policy
Version	1.0
Status	ACTIVE
Effective date	2026-01-01
Expiry date	2027-12-31
Category	policy
Owner department	Compliance

1. Principles

Purpose and scope: this document applies to all SupportNova customer-service staff, outsourced agents and automated assistants. Where this document conflicts with a FAQ or an older version, the active policy version takes precedence (GEN-POL-01).

SupportNova collects only the data needed to fulfil orders and support requests.

2. Data incidents

2.1 Identity documents and one-time codes

Exposure of a CNIC, passport or a shared OTP is a priority P0 privacy incident. Start a privacy incident record immediately.

Never ask customers to send identity documents over chat. Compensation is not paid automatically.

2.4 Personal data exposure

Suspected personal-data exposure (address, phone, email or order details shown to the wrong person) is a compliance incident.

Preserve logs and escalate to Compliance Review. Do not confirm extra personal details in the customer reply.

3. Customer rights

Customers may request access to or deletion of their data. Requests are answered within 30 days.
